ACKNOWLEDGMENTS

I would like to thank my academic supervisor for their guidance and constructive feedback throughout this thesis. Special thanks go to my company mentor for providing insight into real-world challenges and making my time at the company both productive and enjoyable. Finally, I am grateful to my family and friends for their patience and encouragement.

Appendix 2 Table Examples

This appendix shows example tables. Sourced from <https://ieeexplore.ieee.org/document/7165621>.

TABLE I
RESEARCH QUESTION

RQ	Research Question	Motivation
1	Are there FPA problems being reported in terms of accuracy?	Identify and summarize potential FPA problems, pointed out by researchers.
2	Are there proposals to improve the FPA's accuracy? Which improvements are being proposed?	Identify and summarize the approaches proposed to improve the FPA accuracy.
3	Are the proposed improvements effective?	Verify if the proposed improvements are more effective when compared to the standard FPA.
4	What are the limitations for the proposed improvements?	Identify potential problems or weaknesses for the proposed improvements.

TABLE II
DATA FUNCTION COMPLEXITY

		DET		
		1-19	20-50	>50
Record	1	Low	Low	Average
Element	2-5	Low	Average	High
Types (RET)	>5	Average	High	High
